

Dear Senator Cornyn:

Topic: Defense

When Congress returns to Washington in September, I strongly urge your support for several amendments, highly important to military families, to the FY2009 National Defense Authorization Bill (S. 3001) that the Senate will vote on soon after returning to work, including amendments to prevent disproportional TRICARE fee hikes, reduce inequities for disabled military retirees and military widows, and correct reserve retirement pay inequities, among others.

Sincerely,

Dear Senator Cornyn:
